

MAKITI BUILDING & CIVILS
(Pty) Ltd

— DIGITAL BUSINESS PROFILE · 2026

Built to deliver. Managed to account.

Building construction · Civil engineering · External works

South Africa

construction.makitigroup.co.za

Accountable project delivery

Safety-led mobilisation · visible project control

Local roots, scalable delivery

Makiti Building & Civils (Pty) Ltd is a South African contractor built around planned execution, practical site control and defined accountability.

As an operating company within Makiti Group Holdings, the business focuses on project delivery while drawing on central governance, finance, HR, procurement, tender, document-control and compliance support.

SOUTH AFRICA

Scalable national reach

A delivery structure that combines hands-on site capability with disciplined group oversight.

One contractor across the delivery chain

01 Building construction

Residential, commercial, institutional and community works.

02 Civil engineering

Roads, earthworks, stormwater, concrete, paving and kerbing.

03 Site & external works

Preparation, foundations, retaining works, parking and walkways.

04 Renovation & maintenance

Alterations, upgrades, repairs, roofing, finishes and waterproofing.

05 Project & contract support

Estimating, BOQ review, programmes, procurement and close-out.

06 Resource coordination

Labour, operators, plant, specialists and supply-chain mobilisation.

Control is built into every stage

Scope, programme, cost, responsibilities and reporting lines are clarified before mobilisation and managed through handover.

1

PLAN

Confirm scope, programme, resources, risks and responsibilities.

2

MOBILISE

Deploy approved people, plant, suppliers and site controls.

3

DELIVER

Manage safety, quality, cost, progress and reporting.

4

CLOSE OUT

Complete inspections, records, handover and final-account support.
